

Sequoia Christian School

Medication Administration Form

Student Name: _____

Grade: _____

In accordance with school policy, medication(s) should be given at home before and/or after school. Under circumstances where this is not possible and medication administration is necessary during school hours, the school agrees to administer medication prescribed by a licensed health care provider.

Prior to receiving the medication at school, each student must provide the school nurse with a Medication Administration Consent form signed by the student's parent/guardian and a Medication Order (Prescription) from a licensed prescriber.

Prescription and OTC medications must come in their original pharmacy-labeled container.

By signing this document, I give permission for my child to receive the following medication ordered by a licensed prescriber during the school day, and give permission for my child's health care provider to share information about the administration of this medication with the school nurse or school staff delegated to administer medication. It is the parent's responsibility to furnish the medication on a regular basis. The parent agrees to pick up the expired or unused medication within one week of notification by school staff, and grants permission for disposal of medication if not retrieved.
